

Voter Registration in Church

As Americans, we have the unique form of self-government based on Christian principles proclaimed in our Declaration of Independence and fulfilled by our Constitution. An easy and effective way to introduce pastors to the Church's legitimate role in our God-blessed form of government is through registering church attendees to vote. Here are the simple steps needed to perform this for your church:

1. Mention to your pastor the need for Christians to vote if a Christian influence is to be present in our government.
2. Show him recent California legislation regarding abortion (SB 320), assisted suicide (AB-282), and sex change operations on foster children (AB 2119).
3. Offer to have a table at church to register voters and ask for this to be announced.
4. Call your County Registrar of Voters office and arrange to obtain Voter Registration forms. For instance, in Orange County up to 49 registration forms can be mailed to you. More than that requires you to pick them up at the Registrar of Voters office.
5. Read the instructions on the registration form, which explain the procedures for filling out the form and how to submit it.
6. Provide near-by the attached Comparison of Democrat and Republican Party Platforms on Life Issues that people can read before registering.
7. Read the cautions for Vote-By-Mail should you be asked about this option.

8. Offer to promptly mail completed registration forms for registrants. This assures registration form submittal and avoids its loss or misplacement.
9. Keep track of how many registrations have been made and let your pastor know.

Thank you for this relatively simple but vital ministry of good government. Start now and have your church well prepared to vote in the November 6, 2018 elections.
